Wellbeing and  
independent living skills  
for disabled adults

[www.sharecommunity.org.uk](http://www.sharecommunity.org.uk)

# Who we are

Share is a registered charity supporting adults with learning disabilities, autism, mental health, and other support needs to live happier, healthier, and more independent lives.

We provide programmes and activities including personal development opportunities, vocational training, and a range of independent living skills sessions.

# Locations

People from any London borough can attend courses at any sites.

## Clapham Junction

**Share's headquarters**, 64 Altenburg Gardens, SW11 1JL

- 4D Interactive Learning Suite
- Range of iPads and mobile phones
- State-of-the-art professional kitchens
- Spacious teaching rooms with internet-enabled audio-visual equipment

## Tooting

**The Share Garden**, Grounds of Springfield University Hospital, 61 Glenburnie Road, Tooting, SW17 7DJ

- 2.5 acre horticultural training site
- Polytunnels and a heated glasshouse
- Indoor teaching spaces
- Home to Share Nurseries, a social enterprise selling plants where students gain work experience

## Brixton

**We are 336**, 336 Brixton Road, SW9 7AA

- London's largest disability hub
- Bespoke home cooking skills teaching kitchen
- Open accessible teaching spaces
- Sessions running Monday to Thursday

## Vauxhall

**Black Prince Trust**, Beaufoy Walk, London SE11 6AA

- Community food project and community café
- Opportunity to develop hospitality and catering skills
- Extensive sports facilities

## Autism accreditation

Share is accredited by the National Autistic Society (NAS), which runs the UK's only autism-specific quality assurance programme to evaluate organisations providing services for autistic people.

## Autism-friendly environment

- Accessible environment that reduces sensory triggers (e.g. lighting, sound, colours)
- Clear signs and easy-to-understand language
- Structure to our courses and day-to-day activities to provide clear routines
- Relaxation spaces

## The matrix Standard accreditation

Share has held the matrix Standard since 2008, a unique quality standard for organisations to assess and measure their advice and support services, which ultimately supports individuals in their choice of learning, work, and life goals.

# Art

## Portfolio based

Students receive a portfolio of work and a certificate

## Where

Share HQ in Clapham Junction

We are 336 in Brixton

The Share Garden in Tooting

## Course details

The art programme at Share provides an effective and safe way for our students to express themselves emotionally. We support them to explore creativity which helps communication, and offers a way to discover thoughts and feelings. Our art therapies are motivational, helping people feel more confident.

Our three step programme covers a range of mediums:

- **Awareness of style and colour palettes.** Students look at famous artworks and explore paints, pastels, pens and other materials. Digital painting on iPads is a fun and interactive way to express themselves and build understanding of print and pattern design.
- **Creativity with textiles.** Students use sewing machines to create bags and t-shirts, and learn hand painting on different materials.
- **Sensory art.** Sessions are run experimentally and focus on the interaction between movement and dance. This helps get people moving and inspires creative mark-making.

## Our approach

We encourage freedom of expression, supporting people to move at their own pace and explore the mediums that interest them the most.

We partner with creative organisations and art groups, and take part in the Wandsworth Arts Fringe where students create their own designs and take part in exhibitions.

# Creative Expression

## Portfolio based

Students receive a portfolio of work and a certificate

## Where

We are 336 in Brixton

## Course details

This practical programme supports students with their cognitive and communication skills by creating an environment that supports learning through multi-sensory experiences. Students have the opportunity to take part in a range of creative sensory activities.

We explore:

- Sensory and sound activities
- Language greetings and context and we encourage students to initiate conversation
- Self-expression
- Makaton and visual aids

Creative Expression will suit students who have cognitive and communication needs, and who would benefit from an environment that supports learning through the use of sensory activities.

## Our approach

Students rotate in groups around different 'sensory stations' that are set up around a room. Each station features different sensory activities that support cognitive and communication skills – these may include wet, sound, construction and design areas. Students learn about health and wellbeing and develop their independent living skills as a group, using social and sensory stories. We also work with our partners to organise trips and workshops.

As with many projects at Share this is user led. Students will create individual learning targets and goals related to their Student Star (our system to track progress), and assessment through observations and targets.

# Gardening

## Portfolio based

Students receive a portfolio of work and a certificate

## Where

Share Garden, in the grounds of Springfield University Hospital, Tooting

## Course details

Students benefit from the therapeutic powers of gardening to improve their mental health, reduce stress, and explore their creativity in a safe multi-sensory environment. They also learn about health and safety and working as part of team.

As well as developing dexterity students grow in confidence and self-esteem whilst getting fresh air and exercise in a stimulating and friendly environment.

We learn about:

- Basic gardening skills (filling pots, seed sowing, potting on and watering)
- More advanced gardening skills (taking cuttings, feeding plants)
- Looking after flower or vegetable beds
- Garden maintenance (mowing, growing and planting)
- Soil and compost production
- Team working
- Safe equipment use

## Our approach

Students are supported to work at their own pace based on their individual needs and don't need any previous knowledge of gardening.

*Students can also work towards horticulture qualifications (see page 19)*

# Health and Wellbeing

## Portfolio based

Students receive a portfolio of work and a certificate

## Where

Share HQ in Clapham Junction

We are 336 in Brixton

## Course details

The course encourages students to look after their own mental and physical health.

We aim to support students to better understand their emotions and identify strategies for managing them.

We also explore creative ways of moving our bodies, which provides opportunities for students to learn about different dance and movement styles from around the world.

The course covers:

- Meditation, mindfulness, and other ways to promote positive mental health
- Sensory movement sessions
- An exploration of various health conditions and how to manage them
- Identifying risks to mental and physical health
- How to access healthcare online and in person
- The importance of health passports, annual health checks, and visiting the optician and dentist
- Eating healthily and exercising regularly

## Our approach

This course launched during the pandemic to help people understand and cope with the impact that change and uncertainty can have on wellbeing and mental health.

It aims to improve access to physical and psychological health information and services. We link with a variety of health professionals to further embed positive health messages.

# Music

## Portfolio based

Students receive a portfolio of work and a certificate

## Where

Share HQ in Clapham Junction

We are 336 in Brixton

## Course details

Students receive tuition in general musicianship through listening, responding, and creating their own music. We explore a variety of musical styles and genres from around the world.

People may bring in their own instruments if they wish, but we have a range of percussion instruments as well as violins, guitars, and a piano.

We also use audio-visual technology at our site in Clapham Junction; our Immersive Learning Space uses a multi-sensory environment to provide an engaging learning experience.

The class aims to:

- Build confidence and self-esteem
- Help people improve their attention spans and concentration
- Encourage listening and responding by giving people a safe space in which to explore emotions and creativity
- Help people communicate and connect with others in non-verbal ways

## Our approach

Each course is tailored to each particular student group depending on their interests. Students are encouraged to explore their creativity and to take turns leading the group.

Students occasionally participate in local concerts and we sometimes attend accessible performances by organisations like the London Symphony Orchestra. We also occasionally welcome visiting musicians to the class.

# Sport

## Where

The Black Prince Trust Community Hub, Beaufoy Walk, Lambeth, SE11 6AA.

Groups of students who attend any Share sites can also travel together to the site in Vauxhall to take part in football, basketball, boxing, athletics, and other activities.

Students learn travel skills, how to look after their wellbeing, and become more independent and confident.

We provide a programme of physical activity sessions using the excellent sports facilities at The Black Prince Community Hub.

We run two sports days (Mondays and Thursdays) - a women and non-binary group and a men's group. Students take part in blocks of sessions lasting up to 10 weeks. Each block focuses on supporting students to learn skills in the given sport as well as practical skills to look after their health and wellbeing.

Students have a choice of football, basketball, dance, and athletics among others. Sessions are delivered by qualified coaches from the Black Prince Trust and Disability Sports Coach, who provide specialist inclusive sports coaching.

## Our approach

We use an 'I can' statement system for students taking part in this programme. This supports students' learning by breaking down goals into smaller, more manageable chunks.

We will also be looking to offer interested students the opportunity to become Disability Sport Coaches themselves.

# Community Living

## Portfolio based

Students receive a portfolio of work and a certificate

## Where

We are 336 in Brixton

## Course details

This programme supports students to go out in the community and find out about local facilities like markets, police stations, and community centres.

Community Living takes place mainly in the area around our Brixton site at 336 Brixton Road, therefore it is ideal for students who are local to Lambeth and Brixton who would benefit from some support to become more independent in their community.

We focus on areas such as money management, travel skills, independence and social interaction, supporting local students to feel more confident to go out in public and make use of local facilities.

## Our approach

Students learn in real-life settings. The group take regular trips out, meeting new people in different environments which helps increase self-esteem and confidence.

# Home Cooking Skills

## Portfolio based

Students receive a portfolio of work and a certificate

## Where

Bespoke training kitchen at We are 336 in Brixton

## Course details

Students learn how to prepare and cook simple yet nutritious meals for themselves to encourage healthy food choices, and give them the confidence to cook at home.

Thanks to funding from The National Lottery Community Fund, we now include special sessions that focus on budget-friendly meals to support students and their families through the cost-of-living crisis.

The programme includes:

- Identifying the five main food groups and why they are important for good health
- Learning how to eat a balanced diet and good portion control
- How to carry out basic food preparation safely and hygienically like peeling, chopping, and grating
- How to use the oven, dishwasher and other common kitchen appliances
- Setting the table and clearing away after a meal

## Our approach

Our custom built teaching kitchen is fully accessible, with countertops specially adapted for wheelchair use. It's equipped with the types of appliances and utensils you'd have at home and a large kitchen table for people to serve food on, and taste and enjoy their dishes. A large monitor is mounted on the adjacent wall to display easy-read recipes for people to follow.

# Independent Living Skills

## Portfolio based

Students receive a portfolio of work and a certificate

## Where

Share HQ in Clapham Junction

## Course details

Developing the skills to live more independently underpins all our teaching.

This programme covers:

### How to stay safe at home

Students identify potential risks in the home and how to manage them.

### Personal safety outside the home

Students learn how to recognise and deal with risks when out in public, like travelling safely on public transport and looking after personal belongings.

### Everyday home skills

Students develop skills relating to the home, like vacuuming, washing up, ironing, and bed making, as well as looking at recipe ideas for healthy eating.

### Identifying holidays and events to celebrate

Students discuss upcoming holidays and celebration days, talk about why they are important, and explore ways to celebrate them with food, music, decorations, and activities.

## Our approach

We use technology to aid communication and learning based on each student's needs to ensure we provide a truly inclusive experience. And we set home tasks to involve parents and carers in students' progress and to ensure that learning continues outside Share.

# My Life, My Way

## Portfolio based

Students receive a portfolio of work and a certificate

## Where

Share HQ in Clapham Junction

## Course details

My Life, My Way is an independent living skills course that supports people to think about what how they wish to live, what they want to do, and who they choose to do it with.

This programme focuses on:

- The practical skills needed to prepare for and carry out activities, like planning for a social event
- Helping students to understand the roles of people in their support networks, and who to approach for different needs
- How to find out what's happening in the community and how to arrange meeting up with friends
- Understanding and navigating friendships
- Planning for the future, and thinking about life goals and how to reach them

## Our approach

This is a student-led course, supporting students to identify their needs and wants, learn how to advocate for themselves, and to do what they choose.

Shopping

Cooking

Cleaning

Safety

# Out and About

## Portfolio based

Students receive a portfolio of work and a certificate

## Where

In the community but based at Share HQ in Clapham Junction

Community-based course

## Course details

Students learn practical independent living skills out in the community rather than in a classroom setting. Our aim is to help our students develop the skills and confidence to participate equally and independently as citizens in their local communities.

Students are supported to:

- Navigate the public transport network
- Understand how to stay safe in public
- Think about what might be needed on a trip out, depending on the weather and where they are going
- Explore the local arts, culture and heritage sector, visit museums and other cultural organisations
- Take part in community sports and exercise activities
- Connect with nature and exploring various urban green spaces
- Use community services like libraries and gyms
- Make friends
- Stay happy and healthy

We help students identify personal stress triggers when going out and equip them with coping mechanisms (like relaxation techniques) to use if they feel anxious, nervous or uncertain.

## Our approach

Students learn in real-life settings. The group take regular trips out, meeting new people in different environments which helps increase self-esteem and confidence. As with many Share programmes, this is user led. Students work with facilitators to identify and explore the activities and spaces in the community that interest them most.

# Catering

## Accredited course

## Qualifications

CIEH (Chartered Institute of Environmental Health) Food Safety Awareness - Introduction

CIEH Food Safety Principles - Foundation

CIEH Food Safety Supervision - Intermediate

## Portfolio based

Students receive a portfolio of work and a certificate

## Where

Professional kitchens at Share HQ in Clapham Junction

## Course details

Students learn practical kitchen skills, as well as customer service and employment skills. They experience working as a team, learning how to take responsibility by preparing and serving lunch in Share's canteen, and cleaning up the kitchen afterwards. This helps build confidence and gives a sense of achievement.

Share's catering course is suitable for people who would like to gain a recognised qualification in catering as well as those who simply want to become more self-sufficient.

Students learn about:

- Food safety
- Personal and kitchen hygiene
- Knife skills
- Team working
- Handling money and using the till
- Healthy eating and portion control
- Communication and listening skills
- Monitoring and stock management
- Ordering and menu preparation

## Our approach

Students are supported to work at their own pace based on their individual needs.

A maximum of six students are permitted in the kitchen at any one time. This means that everybody has some one-to-one support with the tutor.

# Community Café

## Where

The Black Prince Trust  
Community Hub, Beaufoy Walk,  
Lambeth, SE11 6AA.

Taking part is best suited to those who already have catering or hospitality experience, and who are independent travellers.

This project provides a unique opportunity for students to learn catering and hospitality skills in a community café environment. Students also have the chance to support a community meals project that provides free meals to Lambeth residents in need. Taking part:

- **Encourages active citizenship** - supporting the community during a difficult time leads to a sense of pride and achievement
- Helps students feel a part of the community and encourages them to **develop their social skills** as they connect with local residents
- Develops **hospitality and catering skills**, providing valuable work experience which could lead to future employment opportunities

Students spend 12 months learning key skills to help them move closer to employment. This includes:

- Supporting the preparation, cooking and distribution of 100-150 weekly meals to local Lambeth residents in need, contributing to the borough-wide approach to tackling the cost-of-living crisis
- Learning catering skills like meal preparation, checking temperatures, cleaning down, and porter duties
- Learning hospitality skills like taking orders, serving food, and working the till
- Customer service skills like interacting and supporting customers and the community
- Catering large events for local organisations and completing a daily lunch service for other students
- The opportunity to complete barista training and level 1 and 2 qualifications in food and hygiene
- Learning employment skills such as time management, communication and teamwork

# Digital Finance

## Portfolio based

Students receive a portfolio of work and a certificate

## Where

Share HQ in Clapham Junction

We are 336 in Brixton

The Share Garden in Tooting

## Course details

The course has a strong focus on digital financial literacy, helping students gain the essential digital understanding needed for everyday life.

In a world where many services are online and app based, we aim to support students to access a range of online services, in particular online banking.

Improving digital skills also helps our students to stay connected to family and friends through email and messaging apps, and to safely access leisure services like YouTube and iPlayer.

Students learn how to:

- Set up and use online banking to make payments and manage money safely
- Use online platforms to find information and communicate
- Use apps for everyday banking and for leisure activities
- Understand and fill in digital forms and use security tools like CAPTCHA
- Identify what personal information is, and how to keep it secure
- Set up an email account and send and receive emails
- Set up subscriptions for online services like iPlayer
- Stay safe online

## Our approach

Technology is integral to everything we do at Share and a part of modern life. We provide daily access to laptops, tablets, smartphones, software, and data - to be used within Share and out in the community. To ensure an inclusive experience, we include access to assistive communication technologies for people with limited verbal communication. Students are encouraged to learn at their own pace.

# Horticulture

## Accredited course

## Qualifications

Skills for Working Life in Horticulture

Level 1 in Practical Horticulture Skills

Level 2 in Practical Horticulture Skills

## Where

Share Garden, in the grounds of Springfield University Hospital, Tooting

## Course details

Students learn about health and safety and effective communication in a working garden environment. As well as developing dexterity they grow in confidence and self-esteem, getting fresh air and exercise in a stimulating and friendly environment.

Students learn:

- Basic gardening skills (filling pots, seed sowing, potting on and watering)
- More advanced gardening skills (taking cuttings, feeding plants, seasonal crop rotation)
- How to grow and maintain a personal flower or vegetable bed
- Growing plants for sale or for vegetable boxes
- Garden maintenance (mowing, growing and planting)
- Soil and compost production
- Team working and customer service
- Safe equipment use
- Loading and unloading a commercial gardening vehicle

## Our approach

Students are supported to work at their own pace based on their individual needs.

Students working on Skills for Working Life in Horticulture don't need any previous knowledge of gardening. The Level 1 qualification does requires previous horticulture experience.

Students also have the opportunity to gain valuable work experience at our on-site social enterprise, Share Nurseries.

*Some students enjoy gardening purely for therapeutic reasons without working towards a qualification (see page 7).*

# Maths and English

## Accredited course

## Qualifications

City & Guilds Entry Level 1 and 2 in Maths and English Skills

## Course details

Classes are designed to help students enhance their literacy, numeracy and general communication skills.

Our aim is to help people build confidence and self-esteem, to develop a solid foundation from which they may undertake further training or search for employment.

## Portfolio based

Students receive a portfolio of work and a certificate

## Where

Share HQ in Clapham Junction

We focus on practical, community based learning, like handling money, reading menus, travelling on public transport, and writing letters and emails. Students are encouraged to interact with the local community to put their classroom learning into practice.

Students learn at their own pace, so they can complete separate units towards a full qualification.

## Maths

As well as basic maths, students are taught to count and measure, and to understand and apply maths in real life applications – for example, calculating change, operating a till in a supermarket, and measuring ingredients for a recipe.

## English

We support students to read and write standard written English to help them understand written information and communicate more easily.

# Steps into Employment

## Portfolio based

Students receive a portfolio of work.

At the end of the course everyone gets their own CV.

## Where

Share HQ in Clapham Junction

We are 336 in Brixton

## Course details

This class supports our students to take their first steps towards employment, providing an introduction to the workplace to prepare people for paid or voluntary work, or work experience.

We cover:

- Different requirements for different jobs and how to match these to personal skills
- How to make informed career choices
- How to search and apply for jobs
- CV writing and completing application forms
- What to wear to work
- Which behaviours, attitudes and attributes are appropriate for the workplace
- The importance of personal hygiene
- Preparing for an interview and interview skills

## Our approach

We focus on practical learning with interactive group sessions including role play, e.g. working as a waiter or waitress in a restaurant to understand good versus bad customer service.

Technology is embedded throughout the course. To further prepare them for employment, students learn how to use iPads and laptops.

# Physical activity

We promote an active and healthy lifestyle, working with specialist organisations to get people fit.

**Movement Works** deliver a movement and dance programme designed for people with autism.

**Disability Sports Coach** visit our training centres and provide popular inclusive exercise and dance sessions. We recently celebrated over 600 sessions with them!

Getting out and staying active is a key part of our healthy living and community based courses. We encourage people to exercise, whether walking, visiting gyms or using outdoor gym equipment in local parks.

Groups of students travel over to the **Black Prince Community Hub** in Vauxhall to make use of their extensive sports facilities, (see page 19).

# Befriending

Launched during lockdown to help relieve isolation, the service involves volunteer befrienders visiting people near their homes to go for a walk, a bike ride, a coffee, do some shopping, or just have a chat.

Befrienders are carefully matched to those with similar interests, offering support and friendship.

## How does befriending help?

- It encourages communication, helping our students improve their social skills and feel more self-confident
- It motivates people to get more exercise by getting out in the fresh air
- Social interactions help students feel less lonely, they make friends and have someone trusted to talk to
- People are supported to explore their local areas

- Available to anyone who attends Share
- Activities are chosen by student members
- All volunteers are DBS and reference checked
- Meetings are usually once a week for 1-2 hours

## Our staff

All our tutors and volunteers are DBS checked and bring a wealth of experience and talent in their respective fields. Many are proficient in Makaton and all staff undergo regular learning disability and autism training to better understand people's needs.

We have a dedicated wellbeing team to provide pastoral support and manage each student's journey through Share. People are encouraged to make their own choices in a safe supportive environment.

## Safeguarding

The welfare of our students is paramount. All our staff and volunteers are trained to recognise possible safeguarding concerns and act accordingly so that any issues are dealt with in an effective and supportive manner.

A copy of our complaints procedure is available on our website or by calling 020 7924 2949.

## Parent and carer support

We have a dedicated family liaison officer to make sure people continue to progress at home. We signpost and refer parents and carers to other agencies and services. And we run regular parent and carer meetings for people to share stories, raise concerns, and discuss their needs. This helps us stay connected with our students' wider networks and we welcome regular feedback to help shape the development of our services.

## Our values

We believe passionately in the inclusion of disabled people in society. We treat everybody who comes to Share with respect, compassion, and kindness. We believe everyone has something to offer others, and we build on people's individual talents, interests and abilities.

## Self advocacy

**Student Voice** is a regular meeting, chaired and run by students (with support) to voice their opinions and concerns. Sometimes students decide to invite visitors to talk about different subjects. Afterwards, minutes are sent round in an easy-read format.

**Spectrum** is a self-advocacy group providing a safe and empowering space for people to talk about the challenges they face and also celebrate their uniqueness.

**Student representatives** make sure our students have their say in how things are run at Share. We have autism reps, freetime reps, social reps, health and wellbeing reps, and even fundraising reps, helping to raise our students' voices.

## The student newspaper

Our student newspaper is written by students and for students. Anyone who attends Share is welcome to submit articles and stories. The paper is produced in an easy-read format using Widgit and Photosymbols.

## Lunchtime activities

Lunchtimes give people the chance to have some downtime and enjoy the range of activities organised by our dedicated lunchtime staff. There are quiet spaces for those who wish to have some time alone.

## Events

We host an annual **summer party** at the Share garden for students, families, carers, and friends. We hold occasional fun activity weeks, using our interactive learning space as a dancefloor and our autism friendly relaxation spaces for quieter activities. Students' achievements are recognised and celebrated at our annual **awards ceremony**, where certificates are awarded.

# How we measure progress

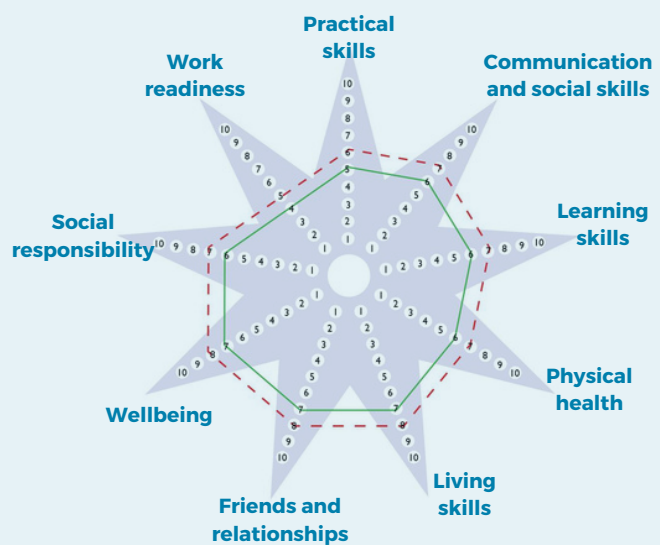

## The student star

At Share we use a tool called the Outcomes Star to support and measure change over time. This helps us to pinpoint individual life and learning goals and help people achieve them.

Progress is tracked across nine core areas:

- Practical skills
- Communication and social skills
- Learning skills
- Physical health
- Living skills
- Friends and relationships
- Wellbeing
- Social responsibility
- Work readiness

Student stars are created for students who attend two or more days a week. When new people join Share, each area is evaluated to assess where they currently are on their journey towards independence, choice and wellbeing. The process is repeated regularly to track progress.

Staff then work individually with students to develop the right support to help them move towards their goals.

This also helps us adapt our services where needed to make sure we're responding to people's changing needs.

## Referral process

Anyone may refer someone to study at Share. You may also refer yourself.

Students attend Share for a minimum of two days and a maximum of five days a week, Monday to Friday.

We're open all year round apart from bank holidays (and we usually close in between Christmas and New Year).

We recommend that, if possible and funding allows, students should attend Share for at least three days a week so we can help them to maximise their learning.

## Payment options

- **Use your personal budget.** If you have one and are receiving direct payments.
- **Referral by a social worker or health worker.** If you don't have a personal budget, your social worker or health worker can refer you to Share. If you let them know you would like to join Share, we will work with them to get you signed up.
- **Self-fund.** If you can afford to pay for your studies from your own funds.
